1. Claims 179-255 are presented for examination.
2. Claims 253-255 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter. Claims 253-255 are an obvious variation of claims 75-77 of the parent application and a terminal disclaimer has been filed.
4. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 179-252 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Claims 180 and 246 recites the limitation "transmitting said data from said content manager to an information gateway for building data blocks and assigning addresses to said data block" in lines 1-3. There is insufficient antecedent basis for this limitation in the claim.
7. Claim 179 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted step is: transmitting said data from said content manager to an information gateway for building data blocks and assigning addresses to said data block, as the step is required for at least dependent claims 180 and 246.
8. The remaining dependent claims inherent this deficiency from claim 179 as all are directly or indirectly dependent on claim 179.
9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Larry D Donaghue whose telephone number is 571-272-3962. The examiner can normally be reached on M-F 8:00-5:00.
